

AUSTRALIA - SOUTH COAST
TASMANIA

D'ENTRECASTEAUX CHANNEL

SCALE 1:75 000 at lat 43°20'

Depths are in metres and are reduced to Chart Datum, which is approximately the level of Indian Spring Low Water.
Heights are in metres. Underlined figures are drying heights, in metres and decimetres, above Chart Datum; all other heights are above Mean Higher High Water.
Positions are related to the Australian Geodesic Datum 1984, and SATELLITE DERIVED POSITIONS.
Navigational Marks: IALA Maritime Buoyage System - Region A (Red to port).
Sources: R.A.N. surveys to 1967. Soundings in upright figures are from old or inadequate surveys.

DISREGARD FROM CHART
Certain lights, leads, beacons and buoys have been omitted from the chart. For details of these larger scale charts, Admiralty List of Lights and Admiralty Sailing Directions should be consulted.

MARINE FARMS
Marine farms, which may be floating or fixed structures, and the associated moorings should be avoided. The farms are generally marked by beacons and buoys, which may be in their charted positions and approximate.

SATELLITE DERIVED POSITIONS
Positions obtained from the Global Positioning System (GPS) in the WGS 1984 Datum must be moved 0.28 minutes SOUTHWARD and 0.08 minutes WESTWARD to agree with the chart.
